

# SOUND STUDIO BINGO

Welcome to the studio.  
See how many things  
you can see or do!

|                                                                                   |                                                                                     |                                                                                    |                                                                                     |                                                                                    |
|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| Say hello to the sound engineer                                                   |    | Warm up your voice                                                                 |    | Test the Mic Height                                                                |
|   | Do a "Levels Check"                                                                 |   | Take a Deep Breath and Sigh                                                         |   |
| Say a Line in Different Voices                                                    |    | Listen through the head phones                                                     |    | Stand very still                                                                   |
|  | Get a thumbs up                                                                     |  | Take a break                                                                        |  |
| Record your lines                                                                 |  | Make silly sounds called "walla"                                                   |  | Say goodbye to everyone                                                            |
